Ustronianka is one of the first mineral water bottling plants in Poland. The company's history began in 1980 in picturesque Ustron. In almost 40 years, Ustronianka has become one of the most modern and best-equipped bottling plants in Poland. Today, Ustronianka produces nearly 200,000,000 liters of water and beverages annually, according to the highest global standards and sells through all distribution channels throughout the entire country and abroad.
